Election/Restrictions

1. The restriction of paper 7 is hereby withdrawn because claim 14 was inadvertently included with the apparatus claims when it is a method claim. The classification of the groups is also being changed.
2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-13, drawn to a conveyor system for establishing a group of items, classified in class 198, subclass 418.2.
 - II. Claims 14-23, drawn to a method of making a filter by forcing a circular end piece onto a cylindrical body, classified in class 29, subclass 520.
3. The inventions are distinct, each from the other because:
4. Inventions II and I are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case the product is not required to be a cylindrical filter and is not required to be assembled by axial force, which deforms at least one of the parts.
5. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

6. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

7. Any inquiry concerning this communication should be directed to Joseph E. Valenza at telephone number (703) 308-2577. Amendments may be faxed to (703) 872-9306. My normal work week is Monday through Thursday.
